

On August 6, 2019 I filed a complaint against Dan Sherman with Human Resources and Council leadership.

On October 11, 2019, I received a written report detailing the results of an investigation of the events leading up to the day of the complaint.

Seeing that the report did not address my actual complaint, I withdrew it on October 24, 2019.

This public action after my private complaint was withdrawn is unnecessary and retaliatory.
