*Campus Amounts are based on information available through the Indiana Data Center Program which is a federal-state partnership between the U.S. Census Bureau and the State of Indiana and is managed by the Indiana State Library in collaboration with its coordinating agencies, the Indiana Business Research Center, the Indiana Geographic Information Council and the Indiana Department of Workforce Development. The Indiana figure is the result of an analysis on 55 of the largest federal spending programs. Currently, there are over 130 programs that actually use census data to determine distribution.
