Hi Ms. Hutton

It feels weird sending you a letter, but this is the only contact I could find for you in 5 minutes of searching. Hope that's okay.

Anyways, I told you I would not hesitate to get in touch if I wanted your help with advocating for pedestrian safety throughout the city. I hope you're not surprised! 😊

I'm not sure if you've heard about ordinance 22-35, which aims to severely limit the neighborhood traffic calming and greenways programs. But I was wondering if you could help me out by telling me your opinion on it and maybe any background info you may have. Maybe we can work together?

Thanks,

- Greg Alexander
