

**\*\*\* Amendment Form \*\*\***

**Ordinance #:** 2024-01  
**Amendment #:** Am 01  
**Submitted By:** Cm. Stosberg  
**Date:** February 14, 2024  
**Proposed Amendment:**

1. Appendix 1 to Ordinance 2024-01 shall be amended by replacing the words “transportation or traffic” in the first paragraph of Section 12.08.110 with “city” so that the paragraph shall read:

If it is necessary to obstruct or block a sidewalk for a period or periods totaling twenty-four hours or more, then the party who has applied for the right-of-way use permit shall provide a walkaround for such area. The city engineer, or their designees, may also require walkarounds for shorter time periods to facilitate access in high-use pedestrian areas or other contexts.

2. Appendix 1 to Ordinance 2024-01 shall be amended by changing the word “finds” to “find” in the first sentence of Section 12.10.050(a) so that the sentence shall read:

If the city engineer or their designees find that any violation subject to this chapter is occurring, or has occurred, a notice of violation (NOV) may be issued to the responsible party.

**Synopsis**

This amendment would replace a reference to the transportation or traffic engineer with a reference to the city engineer, and would make a minor grammatical correction.

**Regular Session Action (02/14/2024):** **Pending**
