1 JOHN HAMILTON,
2 having been first duly sworn to tell the truth, the
3 whole truth, and nothing but the truth, was examined
4 and testified as follows:
5 DIRECT EXAMINATION
6 BY MR. BARTA:
7 Q Good morning, Mr. Hamilton.
8 A Good morning.
9 Q My name is James Barta. I'm an attorney with the
10 Attorney General's Office. Thank you for taking
11 the time to be here this morning. I know you have
12 a dentist appointment later. We'll try to get you
13 there for that, but I can't promise anything.
14 A I'm fine either way.
15 Q Okay. Have you given a deposition before?
16 A I have.
17 Q Well, we'll go over a few ground rules. I'm sure
18 some of it will seem a review, but we'll do it just
19 to make sure we're both on the same page. So the
20 basic format, as you know, is I will ask questions.
21 You will need to answer them. If the City's
22 attorney objects, you'll still need to answer the
23 question unless he tells you not to answer. Do you
24 understand?
25 A I do.

1 Q And to make the job easier for the court reporter
2 here, answers will need be to verbal. Shaking of
3 the head, nodding is hard for the court reporter to
4 capture. So let's both do our best to keep it
5 verbal. Okay?

6 A Yes.

7 Q Great. So if at any point I ask a question you
8 don't understand, please ask for clarification. If
9 you answer it, I'm going to assume you understand
10 the question. Okay?

11 A Yes, sir.

12 Q We'll both do our best not to speak over each
13 other. Again, for the court reporter's benefit.
14 Any reason you cannot answer my questions
15 accurately today?

16 A Not that I can think of.

17 Q Any reason you can't understand my questions today?

18 A Not so far.

19 Q Okay. We will try to, if we go much past an hour,
20 try to take a break. And if at any time before
21 that you need a break, just please let me know.
22 The only thing I ask is that you answer any
23 question that's been asked before we break.

24 A Thank you very much.

25 Q I'd like to introduce this as Exhibit 1.

1 (Exhibit 1 was marked for identification.)

2 Q This is the Notice of 30(b)(6) Deposition we

3 served. Have you seen this document?

4 A Not that I recall, no.

5 Q Okay.

6 A But I know the contents of it I guess.

7 Q Okay. Do you see attached to the document there is

8 a list of topics?

9 A Yes.

10 Q Do you understand you're here to answer the topics

11 that you've been designated for?

12 A Yes, I do.

13 Q And do you understand that you're testifying as the

14 City's representative?

15 A Yes, I do.

16 Q And you were directed to adequately prepare to talk

17 about these topics. Did you prepare to do so?

18 A I did prepare, yes.

19 Q Other than talk with the City's attorney, what did

20 you do to prepare?

21 A I read a few materials trying to remind myself of

22 the history of our annexation. Primarily that.

23 Q Anything else?

24 A I tried to think about things, remember, think

25 about my City, think about our future, our past in

1 general terms, but that's mostly it.

2 Q Nothing else?

3 A Not that I can think of.

4 Q The materials you mentioned, what were those?

5 A I don't know if I can itemize them all. They

6 included some litigation questions, memoranda,

7 motions, et cetera. I looked at -- I think I read

8 a Law Review article about annexation. I reread

9 some of our fiscal plan, maybe just the beginning.

10 That's what I can think of now.

11 Q Okay. Nothing else you remember at this point?

12 A Not that I specifically remember now.

13 Q Okay. So you're currently the Mayor of

14 Bloomington?

15 A Yes.

16 Q How long have you been Mayor?

17 A Since January 1, 2016.

18 Q I don't think we're going to refer to this document

19 any more, so you can feel free to put it to the

20 side.

21 A Okay.

22 Q Have you held any other positions within the City

23 government?

24 A No.

25 Q Do you live in the City?

1 A I do.

2 Q How long have you lived in the City?

3 A Since 1998.

4 Q So can you give me a high level description as your
5 role as Mayor?

6 A Mayor is the chief executive of City government,
7 responsible for overseeing 16 or so City
8 departments, managing the day-to-day operations of
9 the City, interacting with City counsel, public,
10 and serving as the chief executive of the City
11 government.

12 Q You mentioned City departments, what are those?

13 A Well, I'm not sure I can name them all. Is that
14 what you're asking me, to name them all?

15 Q Generally what do you mean by a City department?

16 A Organizations within City government that deliver
17 particular services, such as police or sanitation,
18 for example.

19 Q They all report to you?

20 A Yes.

21 Q So if you're going to give me your elevator pitch
22 for describing the City of Bloomington, what would
23 that be?

24 A Bloomington is a delightful southern Indiana city
25 of 200 years in age. Host to a Tier 1 research

1 university, and thriving and offering a wonderful
2 quality of life.

3 Q What is the City's current population?

4 A Approximately 80,000.

5 Q Do you know how much, approximately how much land
6 area does it cover?

7 A I believe it's about 23 square miles.

8 Q Has the City changed much over the last 25 years?

9 A I think the City has changed substantially over the
10 last 25 years.

11 Q In what ways?

12 A We're talking about the City of Bloomington proper?

13 Q Correct.

14 A We have added significant employment. We have seen
15 major investment, billions of dollars in buildings,
16 businesses. We have seen deepening, enriching of
17 the arts community, a beautiful new park. We have
18 a lot of things going on.

19 Q Has the population changed significantly?

20 A In 25 years in the City of Bloomington, yes. I
21 don't know the exact numbers, but we've seen an
22 increase in the population in the City limits.

23 Q Have the issues the City's been dealing with
24 changed significantly over the last 25 years?

25 A Many issues are the same. Many issues are

1 evolving.

2 Q What are some of the new challenges?

3 A Comparing it now to 1998?

4 Q Approximately.

5 A That's what you're asking, 25 years ago? I don't

6 know how to answer that really. Affordable housing

7 is a challenge, climate change is a challenge,

8 diversity is a challenge, inclusion is a challenge,

9 changing economy is a challenge, education systems

10 are a challenge, healthcare is a challenge. There

11 are a lot of challenges.

12 Q I would think that the City's priorities have

13 changed too over the last 25 years?

14 A I mean, if you pick a level, in some level they

15 haven't changed probably. We try to create a great

16 quality of life for people who are here. But in

17 specifics there is a lot of changes.

18 Q Just one other background question. Have there

19 been any significant changes to the areas outside

20 of Bloomington over the last 25 years?

21 A Yes, I think so. Significant population increase,

22 construction. The community has grown, the county

23 population has grown significantly.

24 Q Any other major changes come to mind?

25 A Climate change has been significant, I think.

1 Leave it at that.

2 Q So one of the issues I want to talk about is the
3 mundane of sewage service. I understand the City
4 runs a municipal sewage works; is that correct?

5 A We run a wastewater services division of our City
6 of Bloomington Utilities, yes.

7 Q The Utilities Department is responsible for that,
8 correct?

9 A Yes.

10 Q Why does the City run a wastewater service?

11 A I mean, I don't know the full history of the City
12 of Bloomington Utilities, but it's typical in most
13 cities that providing wastewater services is an
14 essential need for any dense development of any
15 city to protect health of people and the
16 environment.

17 Q So is it true that any person within the City
18 limits has a right to connect to the City's
19 wastewater service?

20 A We try to provide wastewater services to every
21 resident in the City. I don't believe we do.
22 Sometimes practical considerations make that not
23 possible, but we generally provide wastewater
24 services to the majority.

25 Q If they'd like to connect, they can do so, correct?

1 A Well, I believe there are people who are not
2 connected to wastewater services, primarily because
3 of cost, because of the physical cost it would take
4 to provide those services, but we generally with a
5 vast majority of people and premises inside the
6 City receive wastewater services.

7 Q The City also allows persons outside the City
8 limits to connect to the wastewater service; is
9 that right?

10 A We do on occasion connect people outside the City
11 limits to wastewater services.

12 Q When did the City start providing wastewater
13 service to people outside the City limits?

14 A I do not know when that began. A long time ago.

15 Q By long time ago?

16 A Decades.

17 Q Decades ago?

18 A Yes.

19 Q Do you know approximately how many people or
20 businesses the City provides sewer service to
21 outside the City limits?

22 A Thousands of premises, but I don't know the exact
23 number. It's easily obtainable, but I don't know
24 it offhand.

25 Q All right. I'd like to introduce a document we've

1 marked as Exhibit 2.

2 (Exhibit 2 was marked for identification.)

3 Q Mr. Hamilton, this looks to be a map of the City of
4 Bloomington Utility District sewer infrastructure,
5 correct?

6 A It looks to be a map describing the sanitary sewer
7 system of the Utilities Department of Bloomington,
8 yes.

9 Q And on this map the blue lines represent the City
10 boundaries; is that right?

11 A Let's see. That looks about right. I can't tell
12 for sure, but yes.

13 Q And it looks like the green lines represent the
14 sewer service infrastructure?

15 A Yes. They represent the pipes, the sanitary sewer
16 pipes, yes.

17 Q The shaded gray area, does that represent the area
18 the City provides sewer service?

19 A I don't know that that's -- we provide sewer
20 service wherever those pipes go. So I don't know
21 if those are exactly, but it's labeled Area A and
22 Area B.

23 Q I see on the right-hand side it says Area A - Sewer
24 Service Jurisdiction, correct?

25 A I see that.

1 Q What is sewer service jurisdiction?

2 A I believe that reflects where we do provide sewer
3 service coverage or can with the system that we
4 have.

5 Q And you also see Area B, exclusionary area?

6 A I do.

7 Q What does that mean?

8 A I don't know exactly.

9 Q I think we are done with this. Feel free to set it
10 aside. So why does the City allow persons outside
11 the City limits to connect to its sewer system?

12 A A City 205 years old, typically seeks to grow and
13 does grow, and growth really requires generally
14 sewer service in a City to accommodate the density
15 of growth. And so as we grow, we like to offer
16 sewer services to areas that are growing in
17 exchange for them joining the City. We want the
18 City to grow, most of us. We want it to grow with
19 sewer service when it's technically feasible, and
20 we want that to accommodate regular and consistent
21 growth of the City boundaries.

22 Q When someone outside the City limits taps into the
23 City's sewer system, does that provide any benefits
24 for the City?

25 A By tapping into the sewer system?

1 Q By connecting to the sewer -- let me rephrase.

2 When someone outside the City limits connects to
3 the City sewer system, does that provide any
4 benefits to the City?

5 A I guess I would say we benefit by having more
6 orderly and managed in dense growth, as opposed to
7 sprawl. And when we connect someone to the sewer
8 system, it helps us accomplish that objective of
9 the City.

10 Q How so?

11 A Without a sewer system connection, development will
12 tend to be much less dense and threatening to the
13 environment, and also diminish our ability to
14 manage as a community, where we want to encourage
15 planned, relatively dense growth.

16 Q So you mentioned one benefit to the City is it
17 promotes more orderly growth. Are there any other
18 benefits to the City when someone outside the City
19 limits connects to the sewer system?

20 A I don't think of any immediately.

21 Q Does it provide more revenue for the City sewage
22 works?

23 A The connection provides revenue to the City sewer
24 system in order to serve that person. It's meant
25 to cover those costs.

1 Q So I think you sort of hinted on this, but why is
2 it important for people in unincorporated areas to
3 be able to connect to the City's sewer system?

4 A It benefits people to connect to the sewer system
5 in order to allow denser development primarily, in
6 a more, I think, generally economical and
7 environmentally protective way to manage wastewater
8 as opposed to alternatives.

9 Q Does having denser development in unincorporated
10 areas near the City benefit the City?

11 A Repeat the question. Make sure I understand it.

12 Q Does the City derive any benefits from having dense
13 development nearby?

14 A Well, it depends on whether they become part of the
15 City or not. The City benefits by a thriving
16 economy, vibrant community, and a well-planned
17 development. A City can be threatened by dense
18 development near the City that are not part of the
19 City also.

20 Q Do people who live just outside the City boundaries
21 shop in the City of Bloomington?

22 A I believe very frequently they do.

23 Q Does having more customers allow City businesses to
24 thrive?

25 A More customers can help businesses thrive.

1 Q Do people who live outside the City nearby work in
2 the City?

3 A Many do.

4 Q When the City receives a request from someone
5 outside the City limits to connect to the sewer,
6 City sewer system, what is the City's current
7 process for handling that request?

8 A A request to connect to the sewer system, the
9 sanitary sewer system goes through a City of
10 Bloomington Utilities process, whose detail I don't
11 know every step of, but it's primarily an
12 evaluation of how close are they to the system,
13 what would it cost to do. Sometimes there are
14 particular relationships, issues, if it's a school
15 or a hospital, or there may be particular uses that
16 are significant. And it's a process to evaluate
17 technical feasibility, cost. Also we look at will
18 they become part of the City at some point.

19 Q Did the City have a different process for handling
20 the request to connect in the past?

21 A I'm sure that process has evolved over time. I can
22 talk about the last few years. I don't know the
23 details before I became Mayor.

24 Q Okay.

25 A In the last few years, it has evolved primarily

1 that I'm aware of, the major difference has been
2 when the legislature proposed to change the status
3 of waivers, which required us to reevaluate how we
4 determine waiver relationships as sewers are
5 extended.

6 Q And what change did the City make to the process?

7 A Well, because the legislature indicated waivers may
8 be changed prospectively, or as they have sought to
9 do retroactively, which we are of course contesting
10 about now, we no longer could rely on waivers to be
11 an enforceable agreement as going forward. So we
12 felt rather than rely on waivers, we should
13 generally move towards let's just annex before you
14 get sewers as opposed to after.

15 Q Who at the City is responsible for determining
16 whether a request to connect to a sewer system
17 should be granted?

18 A Well, primarily that's done at the City of
19 Bloomington Utilities. Ultimately I suppose I'm
20 responsible, but generally that's done at the
21 Utilities Department.

22 Q What does the City generally consider in deciding
23 whether to grant a request to connect to its sewer
24 system?

25 A Today?

1 Q Let's start with today.

2 A Okay. So let's just start the question again if
3 you can so I'm thinking about today.

4 Q Today what does the City generally consider in
5 deciding whether to grant a request to connect to
6 its sewer system?

7 A I don't know if I'll be exhaustive, but we do
8 consider cost, proximity to the system. We now
9 consider whether that area may be annexed into the
10 City directly. And there may be some other
11 technical factors. I mentioned sometimes there are
12 unusual circumstances for a particular potential
13 customer that has a significant particular
14 relationship to the City or something like that.

15 Q Were the considerations different in the past?

16 A I believe in the past, the main difference was
17 instead of thinking can you, will you annex now, we
18 said does it make sense to annex in the future.
19 And if so, we will enter into a contract where we
20 will provide sewer service to you in exchange for
21 your agreement to join the City at a date in the
22 future.

23 Q Do you know what the City generally considered in
24 deciding whether to grant a request to connect with
25 the sewer system before you became Mayor?

1 A I don't know personally, but I think generally it
2 would involve -- again, it's how a City manages
3 orderly growth. Orderly in the sense that it's not
4 scattershot or inefficient development of a system
5 that as you kind of grow it from the inside out.
6 Orderly in the sense that it's contiguous to the
7 City generally, appropriate naturally on the land
8 and places where it's planned. Consistent with the
9 City plan.

10 We had designated areas intended for
11 annexation, where zoning was extended, where the
12 City zoning extended into the county. So those
13 were factors I think in the past.

14 Q You said you think. What is the basis for you
15 thinking those were factors in the past?

16 A It's how cities operate. I mean, I'm familiar with
17 this City's basic history, and I know how most
18 cities operate generally. So I think it's an
19 awareness looking at the system how it's been
20 built.

21 Q So it's an educated guess?

22 A I would not call it an educated guess. I would
23 call it an informed description of how cities
24 generally operate, and I think Bloomington is the
25 same.

1 Q You haven't read any document from, say, the 1990s
2 that showed what the City considered in the 1990s?

3 A Well, I have read and seen documents that described
4 areas intended for annexation, and what was
5 referred to as the two-mile fringe. And I've seen
6 documents that described the zoning jurisdiction
7 being expanded beyond the City limits. I don't
8 know for sure if they extended to the nineties, but
9 they were certainly relevant in the aughts, I
10 think.

11 Q You haven't seen a document though that sort of had
12 an exhaustive list of what the City would consider
13 in deciding to grant a request to connect?

14 MR. ROUKER: Objection, asked and answered.

15 A Are you talking about a document today or in the
16 past?

17 Q In the past. Let me rephrase. You haven't seen a
18 document from before your time as Mayor that lists
19 all of the considerations the City would take into
20 account in deciding whether to grant a request to
21 connect to a sewer system?

22 MR. ROUKER: Same objection.

23 A I do not recall seeing such a document.

24 Q I'd like to mark that as Exhibit 3.

25 (Exhibit 3 was marked for identification.)

1 Q Mr. Hamilton, these are responses to
2 interrogatories that the City provided to us. Have
3 you seen this document before?

4 A I assume. I've seen a document that I think is
5 this document, yes.

6 Q Could you turn to page 7, please?

7 A Yes.

8 Q At the top of page 7, it says Interrogatory 1.
9 "During the period described in Paragraph 15 of the
10 Complaint, describe the consideration relevant to
11 whether the City of Bloomington would extend sewer
12 service to unincorporated areas." Did I read that
13 correctly?

14 A I believe you did.

15 Q And below that question there is an answer. And
16 midway through the paragraph do you see the
17 sentence that starts, "It is impossible for
18 Plaintiff to identify the considerations that would
19 have been relevant to such decision over that
20 period of time. Without waiving the foregoing
21 objections, it is reasonable to presume that
22 Plaintiff earlier would have taken the following
23 factors into consideration." Did I read those
24 sentences correctly?

25 A I believe you did.

1 Q And underneath what I just read to you, there is 11
2 numbered paragraphs.

3 A I see those.

4 Q Okay. So the sentence that says, "It is reasonable
5 to presume that Plaintiff earlier would have taken
6 the following factors into consideration." So the
7 answers that follow here is based off what the City
8 presumes, correct?

9 A Yes, I believe so.

10 Q Okay. So we don't actually know what the City
11 considered in every decision to connect to its
12 sewer system?

13 A I don't believe we know what was factored into
14 every decision of extending sewers.

15 Q Okay. So I have a couple of questions about the
16 specific factors listed here. So No. 4 says, "At
17 certain times, whether the parcel was considered
18 part of Area A or Area B." Did I read that
19 correctly?

20 A Yes.

21 Q The Area A and Area B refer to the areas we looked
22 at on the map earlier this morning?

23 A May I ask you, what is the period described in
24 paragraph 15 at the very top of that?

25 Q Let me provide that. Paragraph 15 of the City's

1 complaint talks about a period from the 1950s until
2 now.

3 A Thank you. So from the 1950s until now, at certain
4 times -- you're asking me about paragraph 4, Item
5 4, right? Whether the parcel was considered part
6 of Area A or Area B. I believe that refers to back
7 to this map that you shared earlier, Exhibit 2. I
8 would want to confirm it, but I believe so.

9 Q Do you know when sort of Area B and Area A were
10 drawn out?

11 A I'm sorry, I do not know exactly when those were
12 drawn out.

13 Q Would that have been before your time as Mayor?

14 A I don't think so, but I don't know for sure. I'd
15 have to check.

16 Q Also want to look, I have a few questions about No.
17 6 here. Number 6 says, "The value of the proposed
18 development to the broader community, including but
19 not limited to, the nature of the development's
20 proposed use." Did I read that correctly?

21 A I believe you did.

22 Q What does it mean by value to the broader
23 community?

24 A I think a City when it's deciding whether to extend
25 services, sewer services, evaluates a lot of

1 factors about a proposed development, quality,
2 location. If it's, as I mentioned before, if it's,
3 for example, a hospital or a particular use, it may
4 be important to the City, or it may not be
5 important to the City. So I think in development,
6 generally, the City often evaluates at a
7 complicated level, what is the value to the
8 community of this development.

9 Q Just so I make sure I understand. So if someone
10 was proposing to build a hospital right outside the
11 City, the City might take into account that the
12 hospital may provide valuable services to City
13 residents and the surrounding community; is that
14 right?

15 A Yes. The City may evaluate do we need another
16 hospital? Is that very valuable? Is it a big need
17 that we have, or do we have seven hospitals and we
18 don't need another hospital? Those kind of
19 factors, yes.

20 Q So No. 7 here says, "Whether the proposed
21 development would place significant increased
22 burden on other, non-utility municipal services."
23 Did I read that correctly?

24 A I believe you did.

25 Q What are other non-utility municipal services?

1 A I think we're referring there to the whole suite
2 and range of municipal services that we provide
3 from police, fire, streets, sanitation, parks,
4 economic development, transit, housing development,
5 public safety, all of those services.

6 Q And then No. 10 here says, "Whether the parcel for
7 which service is requested is likely to be a
8 candidate for annexation at some point in the
9 future." Did I read that correctly?

10 A I believe you did.

11 Q Has the City ever extended sewer service to an area
12 outside the City limits that is not a candidate for
13 annexation?

14 A Has the City ever done that? I don't know.

15 Q Has the City ever extended sewer service to an area
16 outside City limits without a plan in place for
17 annexing it?

18 A Again, when you ask me has the City ever done that,
19 that's a big question. I'm trying to think if I
20 know of an area where I know we extended sewer
21 services to an area that we did not view as a
22 candidate for annexation in the future. Sitting
23 here I can't identify such an example where it
24 would not be a candidate for annexation, but I
25 don't know for sure.

1 Q Do you know if the City has ever extended sewer
2 service to an area that might be a candidate for
3 annexation, but without concrete plans in place for
4 annexing that area?

5 A Without concrete plans in place for annexing an
6 area? I'm repeating to make sure I understand your
7 question. Ask me again. It's a very broad
8 question, if you would please.

9 Q Can you think of an instance where the City has
10 extended sewer service to an area that may be a
11 candidate for annexation, but does not have plans
12 to annex that area?

13 A Yes, I can think of -- I don't know if I can think
14 of exact examples, but I can imagine that sewer
15 services have been extended to areas that while
16 they're candidates for annexation, there may not be
17 a specific plan to annex at the moment, at the time
18 it's extended.

19 Q Okay. Can I get you, please, if you would flip the
20 page to page 8 of the document. At the top it says
21 Interrogatory No. 2. "Describe the considerations
22 relevant to the City of Bloomington's decisions to
23 extend sewer service within Areas 1A, 1B, 1C, 2, 3,
24 4, and 5." Did I read that correctly?

25 A I believe you did.

1 Q What are Areas 1A, 1B, 1C, 2, 3, 4, and 5?

2 A Those are referring to the areas which were
3 described in the ordinances adopted by the
4 Bloomington City Council to accomplish annexation,
5 originally in 2017, and then again thereafter.

6 Q So under the section that says Answer, the sentence
7 that says, "It is impossible for Plaintiff to
8 identify the considerations that would have been
9 relevant to such decisions over that period of
10 time. Without waiving the foregoing objections, it
11 is reasonable to presume that Plaintiff earlier
12 would have taken, and is currently taking, the
13 following factors into consideration." Did I read
14 that correctly?

15 A I think you switch "currently" and "is", but
16 generally, yes.

17 Q Thank you for the correction. Do you see under
18 that there is again 11 factors listed here?

19 A I do.

20 Q So do you see factor 4, where it says, "At certain
21 times, whether the parcel was considered part of
22 Area A or Area B."

23 A Yes, I do.

24 Q That's the same factor we read for question 1?

25 A I believe it's referring to the same factor, yes.

1 Q So all of the questions I asked about that factor
2 previously, you would give the same answers for
3 this one?

4 A I'd have to hear the exact question, but it's
5 referring to the same factor, which I think is
6 relevant in the same way.

7 Q You can't think of a different way in which it
8 would be relevant?

9 A I'm just trying to reread the question. I can't
10 think of how exactly -- I do not think of how it
11 would be different at this moment, no.

12 Q So No. 6 here says, "The value of the proposed
13 development to the broader community, including,
14 but not limited to, nature of the development's
15 proposed use." Did I read that correctly?

16 A I believe you did.

17 Q Would that factor be relevant in the same way to
18 these specific areas as to annexation generally?

19 A I believe it would.

20 Q And factor 7 says, "Whether the proposed
21 development would place a significant increased
22 burden on other non-utility municipal services."
23 Did I read that correctly?

24 A I believe you did.

25 Q This factor would be relevant in the same way as

1 factor 7 we discussed for the other question?

2 A I believe it would.

3 Q And No. 10 here on page 9 says, "Whether the parcel

4 for which service is requested is likely to be a

5 candidate for annexation at some point in the

6 future." Did I read that correctly?

7 A I believe you did.

8 Q Would this factor be relevant in the same way to

9 question 2 as factor 10 was to question 1?

10 A I believe it would.

11 Q We're done with this document for the moment. So

12 feel free to set it aside.

13 A Okay.

14 Q So a concept that came up earlier is waivers of the

15 right to remonstrate against annexation. Is it

16 okay if we refer to them and use the short-hand

17 term waivers?

18 A Yes.

19 Q And just so I make sure we're on the same page,

20 what's your understanding of a waiver?

21 A A waiver, a remonstrance waiver is an agreement

22 entered into by a property owner in exchange for

23 sewer services to agree not to contest a future

24 annexation, or remonstrate against.

25 Q Which department or person in the City is

1 responsible for handling waivers?

2 A I think generally it's a combination between City
3 of Bloomington Utilities and the legal department.

4 Q Has that arrangement ever been different in the
5 past?

6 A I do not know that.

7 Q When did the City start seeking waivers from
8 property owners?

9 A Decades ago, but I don't know the precise
10 beginning.

11 Q Do you know why the City started to seek waivers
12 from property owners?

13 A I believe I generally understand why the City
14 sought waivers.

15 Q What's the basis for your understanding?

16 A I believe the City viewed the extension of sewer
17 services as a step toward, and a part of a deal to
18 offer services, those City services, the sewers, in
19 exchange for those receiving the sewer service to
20 agree to become part of the City at some future
21 date. As opposed to doing an immediate annexation.

22 Q But you haven't talked to anyone who was
23 responsible for the City's decision to start
24 requesting waivers?

25 A I'm responsible for requesting waivers now, and I'm

1 familiar with other Mayors. I have spoken with
2 some previous Bloomington Mayors, but I don't know
3 when it exactly began.

4 Q You haven't spoken to the person who made the
5 original decision?

6 A The first person? I don't know. I spoke to -- I
7 don't know when it began.

8 Q So what are the reasons the City seeks waivers from
9 property owners today?

10 A Similar. You just asked that. You asked me that
11 question about why we did it in the past. I think
12 the reasons are generally the same today. That we
13 want to manage growth. We want to encourage an
14 orderly expansion of the City to incorporate
15 urbanized developed areas. And the waivers have
16 been, as set by state law and procedure, have been
17 an orderly way to accomplish that goal, rightsizing
18 the City, incorporating new neighborhoods into the
19 City.

20 Q Do you know if the City has ever considered
21 anything else in deciding whether to request a
22 waiver?

23 A Anything other than what I just described? I think
24 a lot of those factors we just looked at in the
25 last set included other factors, how appropriate,

1 and I think there are other factors, but I tried to
2 describe it at a relatively high level.

3 Q Has the City always required a person to execute a
4 waiver before they could connect to its sewer
5 system?

6 A I do not know if the City has always done that.

7 Q Do you know of any instances in which there are
8 properties outside the City limits connected to the
9 City's sewer system for which the City does not
10 have a waiver on file?

11 A I am aware that there are instances where sewers
12 were extended and there was no waiver filed, yes.

13 Q How many instances?

14 A I don't know an exact number.

15 Q Can you give a ballpark estimate?

16 A I think it's hundreds, but not thousands. I think
17 it's not tens, but hundreds, but that's an
18 estimate.

19 Q Understood. Do you know if any of those instances
20 are in the Areas 1A through Area 5 that the City is
21 now seeking to annex?

22 A I believe there are properties in those areas you
23 indicated that do not have waivers, yes, who
24 receive sewer service, but do not have waivers on
25 file.

1 Q Why did the City extend sewer service to properties
2 without requiring a waiver?

3 A Generally I think it was an oversight.

4 Q Do you think the City was trying to harm itself in
5 extending sewer service to these properties without
6 a waiver?

7 A No. I think cities are not perfect actors, and
8 sometimes we have goals that we don't achieve
9 perfectly, but I don't think the City was seeking
10 to harm itself.

11 Q I think we're about to switch to another section.
12 Would this be a good time for a few minute break?

13 A I'm fine, but if you want to take a break.

14 MR. ROUKER: Sure.

15 MR. BARTA: Let's take five minutes.

16 (A break was taken from 9:45 to 9:51.)

17 Q I have a document I want to introduce as Exhibit 4.
18 (Exhibit 4 was marked for identification.)

19 Q Mr. Hamilton, do you see at the top this says City
20 of Bloomington Utilities Application Request For
21 New Water/Sewer Connection?

22 A I do.

23 Q Is this a request to connect to the City's water or
24 sewer service?

25 A It appears to be.

1 Q Have you seen requests like this before?

2 A I don't know if I've seen a specific request
3 document like this, but I'm aware of them
4 conceptually.

5 Q So towards the top of the document, it says, "Is
6 property for which service is being requested
7 located within the City of Bloomington corporate
8 limits?" Did I read that correctly?

9 A I believe you did.

10 Q And this property is outside the City limits?

11 A This property is marked "no."

12 Q So it would be outside the City limits?

13 A That's what it purports to say, yes.

14 Q And do you see that there is the box for sewer is
15 checked a few rows down?

16 A I do see that that is checked.

17 Q So this would be a sewer request?

18 A I see water is checked, and sewer request is
19 checked, which would suggest it's a request for
20 both water and sewer service.

21 Q Got it. So can you turn to page 2 of the document?

22 A Yes.

23 Q Do you see there is a field that says Approved,
24 with a checkmark next to it?

25 A I do.

1 Q And then it says "Recommendations or conditions of
2 approval."

3 A I see that.

4 Q And it appears under that there is some technical
5 writing; is that correct?

6 A It's describing what appears to be technical
7 specifications, yes.

8 Q So this recommendation or condition section would
9 be something filled out by the City?

10 A Again, I have to say I've not seen, that I recall,
11 a specific, this specific document before, but
12 conceptually that appears to be. It's a request
13 for connection, and it's a City determination of
14 how to respond to it, yes.

15 Q Do you know if there is any other evaluation
16 request like these that are not reflected in this
17 document?

18 A I do not know that.

19 Q Okay. Once the checkmark approved box is checked
20 by whoever at the City signs this --

21 A Can I adjust that answer? You asked me do I know
22 of any other factors. I do think that the factors
23 that we've previously talked about that relate to
24 determination of whether to approve a sewer
25 connection are involved. I don't know if they're

1 reflected or how they're reflected in this
2 document. But things like the factors we talked
3 about in that list of 11 factors, I think are
4 involved generally in determining whether to extend
5 service.

6 Q Are you aware of any document where City employees
7 go through those factors?

8 A I am not.

9 Q After one of these requests is marked approved, are
10 there any further review steps that take place?

11 A I do not know the answer to that.

12 Q I am finished with this document.

13 A Okay.

14 Q I'd like to talk more about annexation. So are you
15 aware that there is two ways to conduct
16 annexations?

17 A I'm generally aware that the annexation can be
18 accomplished voluntarily or through an ordinance
19 process that we did that involves involuntary
20 annexation, yes.

21 Q Do you know how many ordinance-initiated
22 annexations the City has conducted in its history?

23 A I know it's in the hundreds at least, but I don't
24 know the precise number.

25 Q Do you know when the City first began conducting

1 ordinance-based annexations?

2 A I do not know when the City first began conducting
3 ordinance-based. And you repeated my word
4 ordinance-based. I think both voluntary and
5 involuntary involve an ordinance. So I think the
6 City has been annexing since 1818, but I don't know
7 the details.

8 Q Rather than ordinance-based, City-initiated, would
9 that be a better term?

10 A I don't know. Just help me know what you mean.
11 Are you distinguishing between two kinds of
12 annexations?

13 Q I just want to make sure we're on the same page,
14 that we have a common vocabulary. So if I say
15 City-initiated, do you understand that means that
16 we're not talking about voluntary annexations?

17 A If that's what you want it to mean, that's what it
18 will mean to me.

19 Q Great.

20 A Involuntary annexation.

21 Q So if we say City-initiated or involuntary, you
22 understand what I mean by that?

23 A I will try to follow that, yes.

24 Q Thank you. When was the City's most recent
25 involuntary annexation?

1 A Apart from the proceeding we're talking about that
2 began in 2017?

3 Q Let me rephrase. When was the most recent
4 involuntary one completed?

5 A I believe in 2004, since we had not completed the
6 one we're in the midst of.

7 Q Why does the City generally seek to annex
8 surrounding areas?

9 A You've asked me that. We seek to annex areas
10 around us in order to accomplish orderly, efficient
11 growth that helps the City and our whole community
12 thrive.

13 Q What would be the impact of not annexing an area
14 nearby?

15 A Failure to annex a developed area nearby can have
16 serious consequences to a City. It can mean that
17 burdens of services that are increased in a City
18 are not -- I don't know the right way -- if a
19 developed area nearby is not annexed, it can put
20 serious pressure on a City over time, because
21 nearby residents who receive services in the City,
22 who have an impact on the City's services are not
23 part of the community that is supporting those
24 services.

25 Q What services do you have in mind?

1 A Cities provide a huge range of services to our
2 residents and to our visitors and to people who
3 come into the City to work, visit, and that ranges
4 from public safety to infrastructure to parks to
5 economic development, cultural development. All of
6 those quality of life components can be diminished
7 in that we are not able to continue to provide the
8 level of services that will help the community
9 thrive.

10 One way I think about that conceptually is if
11 the City of Bloomington's boundaries had stayed at
12 the 1818 boundaries, today it would be a disaster
13 for the City. We could not be the City we are if
14 our boundaries had not changed.

15 Q Is the main benefit the City seeks to obtain
16 through annexation additional tax revenue?

17 A No.

18 Q What is it?

19 A I think the main benefit -- there are multiple, but
20 the essential benefit the City seeks to obtain
21 through annexation is to accomplish orderly growth
22 and management of the community. Cities are urban
23 animals with relatively dense populations that need
24 and thrive with relatively dense services. And
25 providing that in a symptomatic, orderly way is

1 very important for a city's future. And if that
2 orderly, planned process is not allowed to proceed,
3 that can be very threatening to a city's future.

4 Q How does it threaten a city's future?

5 A Well, as a Mayor, I look at cities where
6 annexation, examples and images of cities where
7 annexation has not worked, and the city has become
8 landlocked. And the story of the last few decades
9 can be where cities are surrounded by non-annexed
10 components. They're hollowed out, damaged, are not
11 able to plan an orderly development, can create
12 stress and inefficiencies in providing services.

13 And again for me, the image I can use is if
14 the City of Bloomington's boundaries were stuck at
15 1818 or 1860 or 1900, it would be a very difficult
16 City to -- we would not be the City we are. We
17 would not be able to provide the services that
18 people need efficiently and to help them thrive.

19 Q Does any entity regulate development outside the
20 City limits?

21 A Yes.

22 Q Which one?

23 A Many entities regulate development outside the City
24 from the county, to the federal government. Well,
25 I guess the state of course, would be key ones.

1 Q I want to introduce as Exhibit 5.

2 (Exhibit 5 was marked for identification.)

3 Q Is this a map of the areas the City is proposing to
4 annex?

5 A This appears to be a map that reflects the
6 annexation ordinances that were passed by the
7 Bloomington City Council, yes, in 2021 I guess.

8 Q So blue is the current City boundaries?

9 A Yes, I believe so.

10 Q And the other colors represent the areas the City
11 is trying to annex?

12 A They represent the areas reflected in the
13 ordinances passed by the Bloomington City Council,
14 yes.

15 Q How much land would these proposed annexation areas
16 add to the City?

17 A I believe approximately 10,000 acres, I think.

18 Q How many people would that add to the City?

19 A I believe approximately 15,000.

20 Q What types of properties are in the areas that the
21 City is trying to annex?

22 A A whole range of properties. Residential,
23 commercial, industrial, medical, I think. A whole
24 mix of different properties.

25 Q When were the properties in these areas developed?

1 A Over a wide range of times. In the last decades.

2 Q So multiple decades?

3 A Well, I think, ten, 20 years. I don't know if any
4 were more than 20 years. Probably some were
5 developed more than 20 years ago, and they're
6 continuing to develop.

7 Q I'm finished with this document. I'd like to
8 better understand the process that the City went
9 through in trying to annex these areas. When did
10 the City first start considering the annexation of
11 these areas?

12 A Well, I think the City first started considering
13 annexing well before I became Mayor. So well
14 before 2016 many of these areas were reflected in
15 the areas intended for annexation. That was the
16 designation formally created. Many of these were
17 in a two-mile fringe that were assigned to City
18 zoning codes, if you will, in the years -- in the
19 2000s at least I think. And then we took action
20 beginning in 2016.

21 Q What prompted the City to start taking action in
22 2016?

23 A So in 2016 I became Mayor. I looked at the growth
24 of the City. I looked at our boundaries. I looked
25 at things like the areas intended for annexation,

1 and the zoning jurisdictions, and the fact that we
2 had a large number of urbanized neighborhoods that
3 were contiguous to the City that were not part of
4 the City, and I felt it was important to begin an
5 orderly incorporation of those into our boundaries,
6 so that we could continue the regular growth we had
7 been on since 1818.

8 Q What was the decision-making process that you went
9 through to decide that the City should annex these
10 areas?

11 A Well, there is a general process of should we
12 annex, which involved those factors that I just
13 described. And then there is a very specific
14 process of which areas to annex. It's a highly
15 technical, highly defined process under state law.
16 And that process was a very complex process of
17 looking at boundaries, looking at density, doing
18 physical planning, doing legal analysis that then
19 led ultimately to the development of a set of
20 proposals that involved the proposed annexation
21 areas in 2017.

22 Q So I guess I'm curious. Since the City proposed,
23 formally proposed annexation in 2017, has there
24 been any development in the areas that you're
25 seeking to annex?

1 A I believe so.

2 Q Do you know how much development?

3 A I do not know how much development.

4 Q Were some of the areas that the City is seeking to
5 annex already far along in their development?

6 A Some of the areas we were seeking to annex were
7 highly urbanized, extensively developed, yes.

8 Q Can you point to one or two of those areas?

9 A On Exhibit 5?

10 Q Or I guess by number. Is there one or two areas
11 that stand out?

12 A I believe all of the areas reflected on this map
13 1A, 1B, 1C, 2, 3, 4, 5, have very substantial
14 development included in those areas.

15 Q How would annexing these areas affect the City's
16 tax base?

17 A Annexing these areas would incorporate them into
18 the City's property tax base, which would increase
19 the levy that we receive annually. As City
20 residents they would also be subject to different
21 income tax rates. Actually, that's not correct.
22 Their income tax rate would be the same. I'm
23 sorry. But the revenue would be allocated to the
24 City as opposed to county. Those would be the main
25 things I think. Their utility rates would go down

1 a little bit, I believe.

2 Q What is the City's property tax rate compared to
3 the county's?

4 A I don't know, I'm sorry, the exact rate. The
5 City's property tax rate is a bit higher than
6 county residents who are not City residents,
7 property that is not in the City limits.

8 Q Is it higher for both residential and businesses?

9 A I believe so.

10 Q Have there been any changes to the City's property
11 tax rates over the last few decades?

12 A Well, the City's property tax rates are basically
13 determined by the state, and every year there is a
14 calculation that, it's a mathematical calculation
15 based upon the levy that the state determines, that
16 then the rate is determined by dividing the levy by
17 the assessed value. So that changes every year.

18 Q How would annexing these areas affect the people
19 who live there?

20 A It would affect them in a number of ways. As those
21 who live in an area, if it becomes annexed, it
22 becomes part of the City, they become voters. They
23 have a whole suite of City services available to
24 them. Things like sanitation service. We provide
25 both maintenance and construction of infrastructure

1 of streets, sidewalks, paths, et cetera. They
2 would typically also have increased park and
3 recreational investments in the areas nearby. And
4 also they would have sanitation pickup, both waste
5 and free recycling, police coverage, public safety
6 protection, housing inspections, a whole suite of
7 services.

8 Q Would it affect where their children go to school?

9 A I don't believe it would.

10 Q Would it affect the regulations that businesses are
11 subject to?

12 A Yes. It typically would.

13 Q How so?

14 A For example, Bloomington has a sign ordinance that
15 governs advertising and signs by a business. We
16 would affect a business's physical premises. We
17 could affect them by requirements of parking or
18 landscaping or those kinds of things under our
19 zoning codes.

20 Q Has the City enacted any significant new business
21 regulations under your term as Mayor?

22 A We have enacted a new Uniform Development
23 Ordinance, so a zoning code that has a lot of
24 components to it in terms of affecting the physical
25 structures and operations. We have provided

1 services to businesses, loan programs, supported
2 services to businesses that are located in City
3 boundaries in my tenure. Those come to mind
4 immediately.

5 Q Would residents in these areas be subject to any
6 different ordinances or regulations?

7 A Yes. There are differences between City codes and
8 non-city county resident codes they would be
9 subject to, yes.

10 Q What is an example of that?

11 A One example is if you have rental property in the
12 City, it can be subject to safety reviews and
13 regulation. That's not subject in areas outside
14 the City.

15 Q Have any regulations or ordinances affecting
16 residents been added to the City's code in the last
17 25 years?

18 A I'm sure, yes.

19 Q Can you think of any significant one?

20 A No smoking affects residents. No smoking rules in
21 public spaces and private spaces in City limits has
22 been a change I think in the last 25 years. Maybe
23 you can help me if you're trying to get me to think
24 of something in particular. The City code is
25 changing every year.

1 Q What about any significant new rules for businesses
2 in the last 25 years?

3 A Significant new City ordinances affecting
4 businesses?

5 Q Correct.

6 A Well, as I mentioned the Unified Development
7 Ordinance is a very substantial fact on business,
8 saying what buildings can be built or can't be
9 built, where parking requirements, landscaping
10 requirements, signage requirements substantially
11 affect businesses. Nothing leaps to mind, but I'm
12 sure there have been others too.

13 Q I understand a number of property owners in the
14 area you're trying to annex have protested
15 annexation, correct?

16 A Yes, that's correct.

17 Q Have residents communicated to the City why they do
18 not want to be annexed?

19 A I think the City has received communications from
20 residents, yes, about why they don't want to be
21 annexed.

22 Q What have those residents told the City?

23 A Well, at a high level, general level I would say
24 residents have indicated opposition to increased
25 taxation levels. Some residents have indicated

1 concerns about City regulations that would change
2 what they can do on their property. Some residents
3 have suggested they just don't want to be
4 associated with the City of Bloomington. Those are
5 kind of some high level concerns.

6 Q Any other concerns jump to mind?

7 A No.

8 Q You mentioned new regulations. Have residents
9 mentioned any regulation in particular?

10 A We've had residents express concern that they won't
11 be able to keep the animals that they keep outside
12 the City if they become part of the City. We've
13 had residents express concern about open burning.
14 I believe I've seen a concern expressed about
15 discharging firearms. Those are some I'm aware of.

16 Q Can you explain what you mean by residents don't
17 want to be associated with the City of Bloomington?

18 A You'd have to ask them. I don't know. I think
19 it's a beautiful city. I love this city.

20 Q Can you think of any reason why they might not want
21 to be associated?

22 A I have heard expressed a statement to the effect of
23 I moved in an area that was less developed in order
24 not to be in a city, not to be in an urbanized
25 area, and I don't want to be in a city. I want to

1 live in the country.

2 Q Are there any political or cultural differences
3 between the surrounding county and the City?

4 A Well, there are some political differences. While
5 Monroe County is a Democratic county, if you look
6 at voter registration and voter behavior and such.
7 The City is more Democratic relatively than the
8 non-City parts of the county, in aggregate. I
9 think there is just kind of common sense cultural
10 differences of a neighborhood where people live
11 half a mile apart, than a neighborhood where people
12 live 60 feet apart, and density and those kinds of
13 things.

14 Q As you know, one of the things that has
15 precipitated from this annexation is the City's
16 current lawsuit challenging the 2019 legislation
17 that the General Assembly passed, correct?

18 A Yes.

19 Q What is your understanding of that legislation?

20 A I understand the 2019 legislation that it purports
21 to, sought to terminate waivers, as we've described
22 them, over 15 years of age, both retroactively and
23 that's in effect prospectively too.

24 Q Aside from filing the lawsuit, has the City made
25 any other changes to its policies or practices in

1 response to the 2019 legislation?

2 A I believe the 2019 legislation changing the nature
3 of waivers prompted us as a City to change how we
4 think about annexation, because it caused us to
5 view waivers as not dependable or reliable under
6 the State's new approach. So it has encouraged us
7 to do annexation through voluntary annexation
8 rather than relying on waivers in the future.

9 Q Has the City conducted voluntary annexation since
10 2019?

11 A I'm not aware of a specific one. Sometimes very
12 small ones happen, but I don't think so. I'm not
13 aware of one.

14 Q In response to the 2019 legislation, has the City
15 made any changes to how it records waivers?

16 A I'm not aware of changes. No.

17 Q Has the City made any changes to how it evaluates
18 requests from people outside the City limits to
19 connect to its sewer service?

20 A Yes.

21 Q What are those?

22 A As I just described, generally at a high level it
23 caused us to shift from using waivers as a tool to,
24 again, manage appropriately, efficiently, orderly
25 growth to rely on voluntary annexation.

1 (Exhibit 6 was marked for identification.)

2 Q Is this a copy of the Complaint that the City filed
3 challenging the 2019 legislation?

4 A It appears to be.

5 Q Could I ask you to flip to paragraph 18 on page 4?

6 A Yes.

7 Q Paragraph 18 says, "Bloomington also provides many
8 services other than wastewater service that
9 benefits residents and nonresidents alike. To
10 identify a few, Bloomington police provide public
11 safety services, the Bloomington Fire Department
12 responds to emergencies, the Street Department
13 maintains hundreds of miles of sidewalks and roads,
14 and the Parks Department builds and maintains
15 dozens of free and subsidized facilities and
16 provides a broad menu of free and subsidized
17 programming." Do you see that?

18 A I do.

19 Q So where does Bloomington provide the services
20 listed here?

21 A We generally provide those services in the City,
22 although they sometimes are extended beyond the
23 City as well, beyond the City limits as well.

24 Q Which specific services are extended beyond the
25 City limits?

1 A Well, police services occasionally take actions
2 outside the City limits. The fire department
3 provides services occasionally outside the City
4 limits. We actually have some parks facilities
5 that are outside, I think, the City limits. Those
6 would be some.

7 Q Are there any others provided outside the City
8 limits?

9 A There may be. If you have any specific questions,
10 I'll try to respond to them.

11 Q Can you think of any others provided outside the
12 City limits?

13 A Well, we provide animal control services that we
14 contract to provide outside the City limits, would
15 be another one.

16 Q Any others?

17 A There probably are. I just don't think of them
18 immediately, but if you want to ask me specific
19 ones, I'm happy to try to respond to them too.

20 Q Why does Bloomington provide services like police
21 and fire outside the City limits?

22 A Part of it is the nature of public safety. Police
23 may be involved in a case or a pursuit, or an issue
24 that goes beyond City limits, and we don't stop at
25 that point, or continue investigations or those

1 kinds of things. Fire department, similarly,
2 either through automatic or direct aid can provide
3 services.

4 A municipality like Bloomington is the center
5 of a region. We provide a whole host of amenities
6 and services that create benefits for people
7 outside the City. And so our services inevitably
8 sometimes extend beyond City limits. Most people
9 do not know where the City boundaries are. So many
10 people think Bloomington is different boundaries
11 than it is. But our services naturally affect
12 people both who live outside the area and sometimes
13 physically extend outside the areas.

14 Q Does the county provide any services within City
15 limits?

16 A Yes. Many.

17 Q What are those?

18 A I won't be able to name them all, but for example,
19 the judicial system, the court system, public
20 health system, probation system, all parts of the
21 criminal justice system. The county is responsible
22 for bridges, maintenance of bridges. Those are
23 several.

24 Q Do police or fire departments outside the City
25 limits ever provide help within the City limits?

1 A Yes, they do.

2 Q Are there parks outside the City limits that City
3 residents use?

4 A Yes.

5 Q Are there other services outside the City limits
6 provided? Let me rephrase. Are there other
7 services that the county provides that benefit City
8 residents?

9 A Absolutely. As many people often -- and I'm sure
10 you know, all City residents are county residents
11 and support county government, and receive many
12 benefits from county government.

13 Q The next paragraph of the Complaint, paragraph 19
14 says, "Development directly along Bloomington's
15 borders, and in particular the dense urbanized
16 development that follows the voluntary extension of
17 sewer service, creates significant additional
18 demand for Bloomington's municipal services." Did
19 I read that correctly?

20 A I believe you did.

21 Q And the municipal services are the ones we talked
22 about, fire, police, parks and so on?

23 A Those are examples of the full range of
24 Bloomington's municipal services, some examples of
25 them, yes.

1 Q What does this mean by developing and creating
2 significant additional demand for Bloomington's
3 municipal services?

4 A More people and more development naturally
5 implicates more services, whether it's attendance
6 at City parks -- As we've discussed, many people
7 who live next to City boundaries spend a lot of
8 time in the City, drive on City streets, dispose of
9 trash in City trash cans. Again participate in
10 parks and programs, are employed by enterprises in
11 the City, participate in arts and cultural events
12 in the City. All of which are part of the suite of
13 municipal services, that as those demands increase,
14 our need to increase those service level increases
15 too.

16 Q So to make sure I get this right. The demand is
17 created just because people want to take advantage
18 of things the City has to offer?

19 A Sometimes people do bad things in the City that we
20 have to respond to that cost public safety or other
21 kinds of services, like that. In general, denser
22 development, which is what cities are, increase the
23 demand for services. That's why City services tend
24 to be at a higher density, if you will, than
25 unincorporated county areas. People just need more

1 services, from wastewater services to public safety
2 to more dense streets, use of streets, more
3 populated streets. And also attendance at a
4 playground, use of a playground goes up.

5 Q When you say that nearby development creates
6 demand, how close does the development need to be
7 to the City to create demand?

8 A I don't think there is a simple answer to that. I
9 think the closer the development, the more intense
10 the development, the relatively more demand.

11 Q I believe you may have touched on this, but why is
12 dense development different from non-dense
13 development in terms of the impact on services?

14 A Cities develop to manage and enhance the lives of
15 people who are more densely organized than not
16 cities. It's kind of the nature of cities. We
17 exist to support and enable denser development to
18 operate than unincorporated, non-densely developed
19 areas, which is kind of a high level common sense
20 thing.

21 Q Has the county made any changes to the services it
22 provides in response to development outside the
23 City limits?

24 A I'm sure they have, yes. Increased population in
25 the county in general requires increased services.

1 More roads need to be plowed.

2 Q Does growth within the City of Bloomington City
3 limits affect what services the county needs to
4 provide?

5 A Yes, I believe so. General population increase,
6 new bridges, new population, criminal justice
7 system, public health, those kind of issues.

8 Q I would like to talk again about Exhibit 3, the
9 interrogatory answers. If you could flip over to
10 page 10.

11 A Okay.

12 Q So at the top it says Interrogatory No. 4, "Explain
13 the basis for the City of Bloomington's decision to
14 provide any of the services identified in response
15 to Interrogatory 3." Did I read that correctly?

16 A I believe you did.

17 Q Just so we're on the same page, can you flip back
18 one page to Interrogatory 3?

19 A Yes.

20 Q And under the answer section it says, "Bloomington
21 identifies the following, non-exhaustive list of
22 municipal services Bloomington provides to
23 unincorporated areas of Monroe County, 1, Animal
24 shelter services throughout Monroe County; 2,
25 Emergency dispatch services throughout Monroe

1 County; 3, Water service throughout Monroe County
2 and beyond; and 4, Fire department and police
3 department services via mutual aid throughout
4 Monroe County and beyond." Did I read that
5 correctly?

6 A Yes, I believe you did.

7 Q So flip back to Interrogatory 4. Under the answer
8 section it says, "Without waiving the foregoing
9 objections, it is reasonable to presume that
10 Plaintiff may have considered the following
11 non-exhaustive list of factors." Do you see that?

12 A I do.

13 Q So these are factors that the City may have
14 considered in deciding to provide the list of
15 services in Interrogatory 3 to areas outside the
16 City limits?

17 A That is how I understand that, yes.

18 Q So I have a few questions about the factors.
19 Number 2 says, "The necessity or benefit of the
20 service to the entire community." Did I read that
21 correctly?

22 A I believe you did.

23 Q What does this mean?

24 A I think this refers to a general assessment of how
25 important is the service to the community, how much

1 benefit will it provide to the community, if it is
2 provided beyond City limits.

3 Q Does the community here include people both inside
4 and outside the City?

5 A Yes. I think so.

6 Q Can you give an example of how this factor would be
7 taken into account?

8 A Yes. I'll try. I believe, for example, on
9 dispatch services, this factor would suggest
10 providing efficient and high quality dispatch
11 services is very important to the entire community.
12 It can be done well and better in an integrated way
13 across the whole community, across the whole
14 county, for example, than if they were a separate
15 system for City and county. Might be one example.

16 Q Is the City legally required to take into account
17 the benefit to people outside the City limits?

18 MR. ROUKER: Objection, calls for a legal
19 conclusion.

20 A I don't know the answer to that question.

21 Q Are you aware of any that would require the City to
22 take into account the needs of nonresidents?

23 MR. ROUKER: Objection. I believe that was
24 just asked and answered.

25 A Am I aware of anything that requires us? I think

1 there may be an agreement we've made with the Corps
2 of Engineers about Lake Monroe. That we will
3 provide water services to the wider community as
4 part of that general project, 50-year old project,
5 for example.

6 Q Okay. So factor 3 says, "The capacity of other
7 actors to adequately provide the requested
8 service." Did I read that correctly?

9 A I believe you did.

10 Q Who are the other actors?

11 A I think we're referring here to other governmental
12 actors, or other actors. I think an example here
13 maybe would be in the animal services. If there
14 were a nonprofit humane association that was
15 providing excellent service, that would factor into
16 how important it was to assess whether and how to
17 provide animal services outside the City limits,
18 would be an example.

19 Q So nonprofit could be one actor?

20 A Government, nonprofit.

21 Q The county could be another?

22 A Yes.

23 Q State could be another?

24 A Yes.

25 Q Four says, "Whether Bloomington is legally required

1 to provide the requested service." Did I read that
2 correctly?

3 A I believe you did.

4 Q Which services is Bloomington legally required to
5 provide outside the City limits?

6 MR. ROUKER: Objection, calls for a legal
7 conclusion.

8 A Again, I don't know of any. If you have a specific
9 question, I'd be happy to try to answer, but in
10 general I'm not aware. I mentioned we may have
11 entered into contracts, which are then legally
12 binding on us, to provide a service that we agreed
13 to provide, but I'm not sure if that's what you're
14 asking about.

15 Q I'm just trying to understand how this factor gets
16 taken into account. So you think contracts is the
17 example you have in mind?

18 A No. I think this example is looking at, I think,
19 for example, something like the Lake Monroe water
20 supply, where we have, I believe, agreed in the
21 context of that huge project to provide drinking
22 water services to the wider community, that we may
23 be legally required to do that.

24 I don't know, there may be state laws about
25 dispatch services. If you're using public safety,

1 local income tax or public safety PSAP. I don't
2 know what that stands for, P-S-A-P, there may be
3 legal requirements for that, but I'm not aware of
4 specifics.

5 Q Aside from the Lake Monroe project and dispatch
6 services, you're not aware of anything where this
7 factor could affect the decision?

8 MR. ROUKER: Same objection.

9 A I'm not. I'm just trying to think, for example, in
10 public safety. I don't know if there is a state
11 requirement or other that certain public safety
12 situations, you may be under a mandate from the
13 state to, emergency response or disaster response,
14 for example, that kind of thing. I think we may be
15 mandated to provide services like that to
16 supplement, add services.

17 Q So you're not aware of any legal requirement that
18 the City allow nonresidents to access City parks,
19 for example.

20 MR. ROUKER: Same objection.

21 A I am not aware of a legal requirement like that.

22 Q So No. 5 says, "Whether or not the provision of the
23 service is in exchange for any commitments from
24 other parties, such as mutual aid." Did I read
25 that correctly?

1 A I believe you did.

2 Q Which services would this factor affect?

3 A I believe this factor would affect public safety
4 services, which often have mutual commitments for
5 mutual aid in numbers of different circumstances,
6 police and fire services.

7 Q Can you explain what a mutual aid agreement is?

8 A As is typical of fire departments, for example,
9 often enter into mutual aid agreements under which
10 each department, adjacent departments agree to
11 provide support to one another in case of need.

12 Q I think maybe if it's all right with you, if we
13 could take a ten-minute break. Make sure, I think
14 we're about done.

15 MR. ROUKER: That sounds good.

16 (A break was taken from 10:42 to 10:58.)

17 Q I just have a few more questions.

18 A Okay.

19 Q So as a general matter, are annexations a response
20 to development that's already occurred?

21 A As a general matter, annexations are a way to
22 accomplish orderly growth of the City,
23 incorporating areas that are developed or likely to
24 develop.

25 Q Why were areas 1 through 5, 1A through 5 not

1 annexed before your time as Mayor?

2 A I do not know that.

3 Q So you've used this phrase a couple of times

4 "orderly development." Help me understand it.

5 What in your view would be disorderly development?

6 A Well, disorderly development would be a

7 metropolitan area that has inconsistent,

8 inefficient provision of services and oversight.

9 Again, the image I may use is if the City

10 boundaries of Bloomington had been frozen in 1950,

11 we would not be an orderly City, because we would

12 not be able to plan the metropolitan growth so it's

13 consistent with road design and provision of

14 services. An orderly development is one that the

15 boundaries and the services of the City follow the

16 urbanization of the land.

17 Q So earlier we talked about there is two types of

18 annexation, City initiated ones and voluntary

19 annexations, right?

20 A We did.

21 Q Why does the City need City-initiated annexation

22 when voluntary annexations are an option?

23 A Why do we need it today?

24 Q Why do you need that for the future?

25 A We need to be able to plan for annexations.

1 Waivers were a way to plan for annexations when we
2 could count on the deal of the waiver being
3 implemented. Because we are not able to count --
4 given the State's actions, because we're not able
5 to count on the reliability of annexation waivers,
6 we find that voluntary annexation is the smart and
7 prudent way to go forward. I'd leave it at that I
8 think.

9 Q When you have voluntary annexation as a way to go
10 forward, why would you need a City-initiated
11 annexation?

12 A Well, one example would be some voluntary
13 annexations are not contiguous. We have a
14 developer who wants to get sewer service and be
15 part of the City, by under state law they may not
16 be allowed to. In that circumstance it's really
17 important for us to be able to implement waiver
18 agreements or annexation that can pull other areas
19 into the City.

20 Now, going forward, I think as we've said, if
21 the State wants to change the rules on waivers and
22 how annexation works prospectively, we can try to
23 make that work. I will say we're in a terrible
24 quandary now, because if the agreed upon
25 annexations that have been planned and agreed to

1 for many years are not allowed to go forward, then
2 we don't have continuity with the next round of
3 development that wants to happen right now. So
4 we're stuck in the middle.

5 We can make voluntary annexation work if we
6 have a decent starting place, but we've had the rug
7 pulled out from under us in the orderly annexation
8 plans that we've had for decades.

9 Q Last question. Any answers that you've given today
10 you need to go back and correct?

11 A I don't believe so at this sitting.

12 Q I am done.

13 CROSS-EXAMINATION

14 BY MR. ROUKER:

15 Q We'll have just a few. So I'm giving everybody
16 what I think we're going to call Exhibit A.

17 (Plaintiff's Exhibit A was marked.)

18 Q So I've given you what has been labeled as
19 Exhibit A. What is this?

20 A This appears to be a Waiver of Protest of
21 Annexation signed -- I don't know what year.

22 Q That's fine. The year is not important. Would you
23 please look at the first paragraph of this Waiver
24 of Protest of Annexation?

25 A Yes.

1 Q In examining that, are you able to identify the
2 consideration that runs to the City of Bloomington
3 in this agreement?

4 MR. BARTA: Objection, calls for a legal
5 conclusion.

6 A Do I answer?

7 Q Yes.

8 A So when I look at this, the consideration that the
9 City of Bloomington is receiving -- let me get the
10 words right here -- is the owner of the property
11 releasing the right to remonstrate against any
12 pending or future annexation by the City of
13 Bloomington of that real estate. That's what we're
14 getting from this agreement.

15 Q It might be helpful, would you just read through
16 that first paragraph for us.

17 A Sure. "The undersigned, Beverly McGuire, as owner
18 of the real estate hereinafter described, for and
19 in consideration of the City of Bloomington,
20 Indiana, granting to the undersigned the right to
21 tap into and connect to the sewer system of the
22 City of Bloomington for the purpose of providing
23 sewer service to the described real estate, now
24 release the right of the undersigned as owner of
25 the described real estate and their successors in

1 title to remonstrate against any pending or future
2 annexation by the City of Bloomington, Indiana, of
3 such described real estate."

4 Q What other factors are listed in this document as
5 consideration --

6 MR. BARTA: Objection.

7 Q What other factors are listed in this document
8 affecting whether or not the City of Bloomington
9 can extend sewer service, and what the City
10 receives in exchange for extending sewer service?

11 MR. BARTA: Objection, calls for a legal
12 conclusion.

13 Q Go ahead.

14 A I don't see any other factors. It's only the
15 agreement in exchange for us providing sewer
16 service that they agree not to remonstrate against
17 any pending or future annexation by the City of
18 Bloomington.

19 Q As far as you know, has the City fulfilled its end
20 of the bargain relating to this agreement?

21 MR. BARTA: Objection, calls for a legal
22 conclusion.

23 A Absolutely. I know we have provided the sewer
24 service as promised.

25 Q Do you believe the City has a reasonable

1 expectation the other side will fulfill their part
2 of the bargain?

3 MR. BARTA: Objection, calls for a legal
4 conclusion.

5 A I absolutely believe we have a reasonable
6 expectation that they will fulfill their part of
7 that bargain.

8 Q One other line of questioning quickly. There were
9 some questions earlier related to whether or not
10 municipal residents utilize services that are
11 provided by county government. I think there were
12 some questions about the parks, for example. Do
13 municipal residents pay property taxes to support
14 county services?

15 A Absolutely. We are county residents, as I am. I'm
16 a City resident and a county resident.

17 Q Do county residents pay property taxes to the City
18 of Bloomington to support municipal services?

19 A They do not.

20 Q I think that is all.

21 REDIRECT EXAMINATION

22 BY MR. BARTA:

23 Q A few questions. So you were asked about this
24 Waiver of Protest of Annexation.

25 A Yes.

1 Q And it talks about how the owner is going to
2 connect to the City's municipal services, correct?

3 A Connect to the municipal sewer service, yes.

4 Q When someone connects to the municipal sewer
5 service, do they execute any other agreements with
6 the City?

7 A I do not know.

8 Q Do you know whether they execute an agreement to
9 pay a connection fee?

10 A I don't know whether they execute, but they do
11 agree to pay service fees.

12 Q Do they execute an agreement to pay utility rates?

13 A I don't know if they execute an agreement, but they
14 do pay for the utility services under the schedule
15 of service and fees, yes.

16 Q I think those are all of my questions.

17 MR. ROUKER: I think we're good. We'd like
18 signature.

19 MR. BARTA: Electronic copy. Ten-day
20 turnaround is fine.

21 MR. ROUKER: Electronic copy.

22 (The deposition concluded at 11:09 a.m.)

14 I, JOHN HAMILTON, state that I have read the
15 foregoing transcript of the testimony given by me at
16 my deposition on July 21, 2023, and that said
17 transcript constitutes a true and correct record of
18 the testimony given by me at said deposition except as
19 I have so indicated on the errata sheets provided
20 herein.

3

4 I, Teresa R. Kramer, a Notary Public in and
5 for said county and state, do hereby certify that the
6 deponent herein was by me first duly sworn to tell the
7 truth, the whole truth, and nothing but the truth in
8 the aforementioned matter;

9 That the foregoing deposition was taken on
10 behalf of the Intervenor; that said deposition was
11 taken at the time and place heretofore mentioned
12 between 9:00 a.m. and 11:09 a.m.;

13 That said deposition was taken down in
14 stenograph notes and afterwards reduced to typewriting
15 under my direction; and that the typewritten
16 transcript is a true record of the testimony given by
17 said deponent;

18 And thereafter presented to said witness for
19 signature; that this certificate does not purport to
20 acknowledge or verify the signature hereto of the
21 deponent.

22 I do further certify that I am a disinterested
23 person in this cause of action; that I am not a
24 relative of the attorneys for any of the parties.

25

1 IN WITNESS WHEREOF, I have hereunto set my
2 hand and affixed my notarial seal this 2nd day of
3 August, 2023.
